Decision type:

- For information
- For consultation
- For approval

Introduction

On behalf of the program management of the Research Master in Neuroscience we would like to thank the ECRM for the valuable input on the submitted documents for the upcoming midterm review of the program.

As requested we are hereby providing the ECRM with the following information:

1. Revised version of the self-evaluation report including the student chapter (appendix 1)
2. Response of the program management to the questions and remarks made by the committee (appendix 2).

The program management is hereby requesting formal consent from the ECRM on the revised self-evaluation report. The final version of the report will be subsequently submitted to the dean of the faculty, and to the rector and the executive board of the university for the formal approval.
