The student (you) travels to the Netherlands with their approval letter

Upon arrival, the student (you) visits the IND desk for their biometric data

Team Immigration will send you more instructions about the collection of your residence permit

FINISH

Please note: Your immigration process is handled by Team Immigration (EUR) and your admission process by your faculty. This means that we help students with a conditional (e.g. pending graduation) and unconditional offer after we are informed by your faculty. Having an immigration case does not automatically mean that your conditional offer is now unconditional, always refer to the admission team of your faculty for questions regarding admission. Team immigration has no knowledge about your admission process and/or deadlines.

Submitting your immigration documents on time (before the deadline) is part of your enrollment request, failing to submit your documents and pay your invoice on time results in an incomplete enrollment!

Please note: schedule your biometric data appointment at IND even if you are not in the Netherlands yet!
