APPENDIX 2: OVERVIEW MASTER CURRICULUM 2024 - 2025

The student chooses two of the four course clusters or a curriculum without a cluster. Each cluster consists of four courses, of which two are optional. In total, students take six courses (30 EC) within the cluster program.

Moreover, all master students follow the following courses:

- The course 'Milestones Trajectory and Research Practice'; during this course, the students start with the preparation and writing of the draft of the thesis; this course concludes with an oral presentation in Block 3 on the progress of the research.
- The course 'Academic Skills: Classical Texts, Contemporary Challenges'
- The skills course from 'Theory to Practice', where students can choose between three specializations, including mentor groups per specialization and a final workshop with all participants.

The student may use no more than 5 EC for a (philosophical or non- philosophical) subsidiary subject at an institute of academic education, on the condition that, when choosing a subject cluster, they meet the requirements listed in paragraphs 2 and 3 of this Article.

The Examination Board's prior approval is required for the inclusion of a subsidiary subject. The Examination Board's prior approval is required for courses followed in international exchange programmes. The student is allowed to follow courses from all four clusters, but the Examination Board's prior approval is required for deviation from the cluster programme.
