

Klimaatonderzoek Initiatief Nederland (KIN)

A short introduction in who we are and what we do

Een initiatief van

KNAW

NWO

Why was KIN founded?

Urgency of climate crisis, yet change is too slow. Climate knowledge is scattered and not sufficiently of use to those that need it.

Ambition: accelerate system change to a climate neutral and climate resilient society

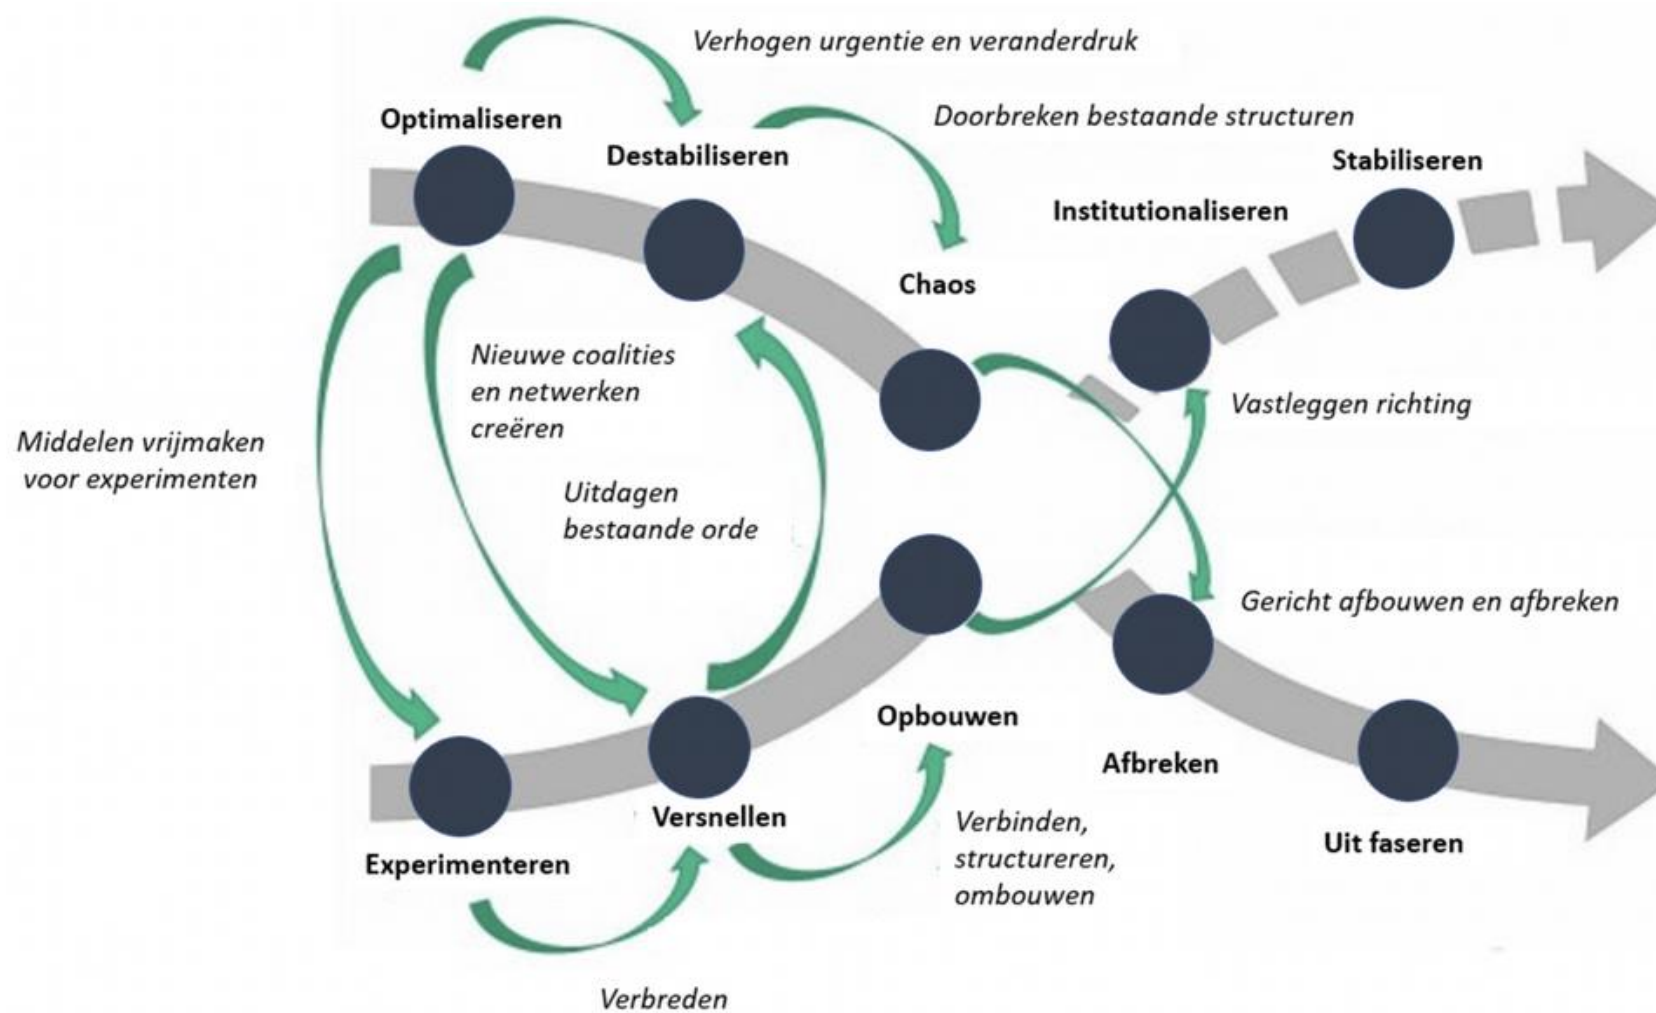

Mission: KIN connects, broadens, deepens and makes available knowledge to accelerate the climate transition

- Officially founded as “NWO regieorgaan” in Nov 2023

System change

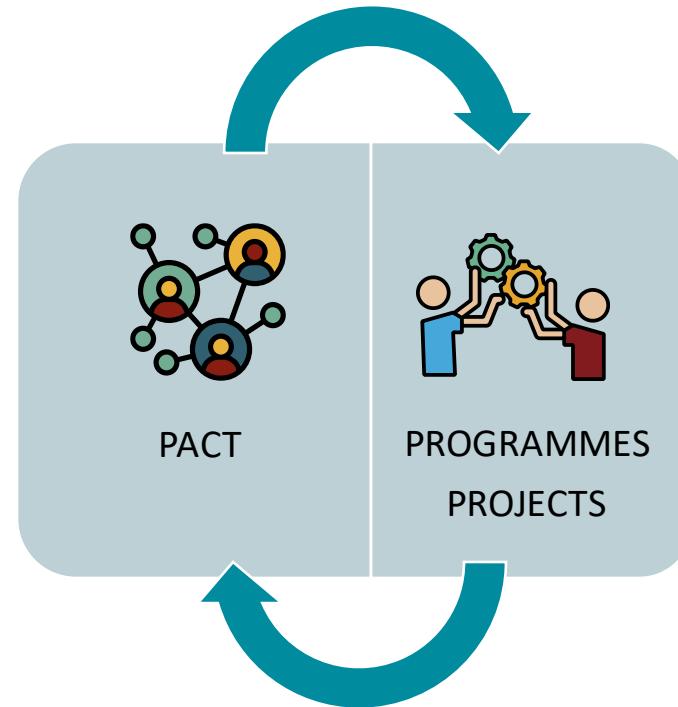

What does KIN DO : interaction network and activities

Identification of knowledge gaps

- Societal organisations
- Governments
- NGO's and Companies
- Knowledge institutions

Mission-driven
Flexible, adjustable
Aimed at action perspective

Identification of transition barriers
Development of action perspective

KIN is more than a funder
Our members in the PACT are the KIN

Challenges

- Top down steering vs. simulating new transdisc. consortia
- Urgency & speed vs. doing justice to complexity
- Setting conditions vs. starting open and adjusting
- Discrepancy in availability of researchers vs non-researchers
- Ensuring societal problem owners remain 100% on board
- Policy of recognition and rewards in practice
