

The EUR Basic Examiner Qualification (BEQ) is a qualification trajectory for teachers with the role of examiner. It goes more in depth on assessment than the UTQ. In this infographic you will find a visual representation of the BEQ trajectory. It consists of 3 sessions (MicroLabs). You can find more information about the content of the MicroLabs and when they are offered [here](#).

If you would like to sign up for the BEQ, please complete the [online application form](#). You can select the MicroLabs you want to enroll for in the form. For Erasmus MC: send an email to [training@risbo.eur.nl](mailto:training@risbo.eur.nl).
