5. There is no resit exam for the Research and Writing Skills exam during the general resit period.

Article 26 Registering for (interim) exams and cumulative assessments

1. Students who are registered for the relevant Master's component at the start of a block are registered for the regular examinations.
2. Students must register themselves for a resit.
3. The examiner or the ESL Examination Board will not determine a result if the student is not registered for the Master's component in question at the start of a block and nevertheless takes the exam.

Article 27 Student progress administration

1. The faculty registers the students' individual study results and makes these accessible to the students via Osiris.
2. The student can request an authenticated study progress overview from the Study Progress and Diploma.

Article 28 Cancellation of an exam

1. Changes to the scheduled times of the exam will only take place in the event of a force majeure.

2. If the Royal Netherlands Meteorological Institute (KNMI) issues a weather alarm (code red) for a certain period of time for the entire country or specifically for the region Rijnmond due to extreme weather conditions, the Dean decides which written exams scheduled in the relevant period will be canceled.
3. An emergency - other than a weather alarm - occurs if an unexpected event occurs that could (possibly) lead to disruption of order in the examination hall and/or the entire EUR campus. A disaster also occurs if an unexpected event occurs that can influence the administration of an exam from the campus that requires access to, for example, test software or online proctoring.
4. If there is an emergency before the start of an exam, it is primarily up to the Dean, in consultation with the exam organization, to decide whether an exam should be canceled. If there is insufficient time for consultation with the Dean, the examination organization is authorized to decide whether the examination should be canceled.
5. The cancellation will be announced immediately on the EUR homepage, the news pages of the Service Desk and on Osiris Student. Where possible, students will also be informed about the cancellation by email or text message.
6. The Dean will determine as soon as possible after the cancellation in consultation with the responsible examiner(s) on which date the new examination will be held, preferably within two weeks after the original examination date. The new exam date will be published immediately on Osiris Student.

Chapter 8 (Interim) exam results

Article 29# (Interim) exam grading**

1. If an (interim) exam is administered and graded by more than one examiner, the examiners will jointly ensure that the assessment is conducted using the same standards.
2. For (interim) exams comprised partially or exclusively of multiple-choice questions, the examiner will ensure that the correct answers to the multiple choice-questions are made available after the exam.
3. The Examining Board can promulgate regulations concerning the manner in which exam results are registered.

Article 30# Review meeting**

1. After the grading of an exam, as described in Article 21 paragraph 1, the student will be given the opportunity to review his or her graded answers and/or submissions for the respective (interim) exam. The examiner shall provide an explanation of the contents of the (interim) exam and the grading criteria applied in the form of model answers. Review and explanation can take place in the manner (individually, collectively, orally, digitally or written) chosen by the examiner. The place and time of the review and explanation shall be determined – within the time frame set by paragraph 2 below – by the examiner and if possible announced in the syllabus, but at the latest on the date of the (interim) exam. In the event of a written (interim) exam, the place and time of the review and explanation will, if possible, be stated on the exam form. The programme director can impose further rules with regard to the form and manner of the review.
2. The review and explanation will take place within ten working days after the announcement of the results of the respective (interim) exam. This period does not apply to the resit examinations that take place in the general exam resits of June/July. The review and explanation of these resit exams shall take place within due time, but at the latest five working days before the commencement of the new academic year.
3. In the event of a collective oral review and explanation, the student must register in advance. The examiner can set other procedural rules, which will be made available to the students before the review.
4. If the student suspects obvious mistakes or apparent errors in the determination of the result, the student can make this known in a manner indicated by the examiner. Examples of obvious mistakes or apparent errors are the absence of grading of one or more questions or sub-questions of an (interim) exam or the wrong addition of the scores given in the grading of the questions or sub-questions. A disagreement about (the application of) the model answer, for instance the scores given to one or more questions or sub-questions, will not be discussed by the examiner. The examiner will review the result officially, which will take place – if possible – within ten working days after the examiner has established the obvious mistake or the apparent error, but in principle at the latest before the end of the academic year in which the respective (interim) exam was taken. If a review leads to a change in a grade already published in Osiris, the examiner will inform the student of this by email. There is no possibility to appeal to the EUR's Board of Appeal for Examinations (CBE) for the result determined by the examiner. Neither is there an opportunity to request the Examination Board to form an independent opinion of the grade given. Without prejudice to the provisions in Section 8:4 para 3 under b of the Dutch General Administrative Law Act (*Algemene Wet Bestuursrecht: 'Awb'*), the student can within six weeks after registration of the grade in Osiris file an appeal with the EUR's Board of Appeal for Examinations (CBE), but only with regard to the way in which the final grade has been determined.

5. Immediately after an oral (interim) examination, there will be a review involving the examiner/examiners and the student. The provisions set out in the previous paragraphs of this article also apply, insofar as is applicable, to oral (interim) exams.
6. The questions, submitted answers, model answers and grading of written (interim) exams will be retained (in paper or digital form) during two years from the date of grading.

Article 31# Announcement and registration of (interim) exam results**

1. The student is informed of the results of an oral (interim) exam on the day on which the (interim) exam in question is administered.
2. Barring unforeseen circumstances, the result of the assessment of an assignment will be communicated to the student orally or in writing at the latest on the twentieth working day after the final submission date of the assignment.
3. The student will be informed of the results of a written (interim) exam as quickly as possible, but no later than the 15th working day after the date on which the (interim) exam in question is administered.
4. Unless an evident administrative error has been made, the results of a student as recorded by the Study Progress and Diploma cannot be revised downward.
5. The results referred to in the preceding paragraphs will be disclosed via Osiris Student. The results will be posted on MyEUR if the registration via Osiris Student is not possible.
6. Students may at any time request from the Study Progress and Diploma a certificate listing the results of one or more (interim) exams.

Article 32# Term of validity of successfully completed (interim) exams**

1. The period of validity of an (interim) exam passed, or compensated result, can be restricted if the examined knowledge, understanding and skills are demonstrably obsolete.
2. Six years after having obtained the result, the obsolescence of examined knowledge, understanding and skills of an (interim) exam passed, or compensated result, can be tested by the Examination Board.
3. After consulting the examiner responsible for the component in question, the Examination Board can declare the period of validity of a component that was obtained more than six years ago as having lapsed if at its discretion the examined knowledge, understanding and the skills of the component have become obsolete and as long as the examination has not been passed.
4. The provisions in paragraphs 1, 2 and 3 apply likewise to an exemption granted and to components passed elsewhere, calculated from the date on which the (interim) exam had originally been passed.
5. At the request of the student the Examination Board can extend the period of validity of the passed component that in its opinion has become obsolete.
6. When limiting the period of validity in accordance with the first paragraph, personal circumstances are reasonably taken into account. Personal circumstances must be reported to the study advisor in a timely manner. Timeliness exists if these are reported four weeks after the start. When the validity is extended by the Examination Board, reasonable account is taken of the extent to which personal circumstances have influenced the exceeding of the limited period of validity and the duration of the financial support granted on the basis of the Profiling Fund Regulations is taken into account.
7. The results of the practical tests and modular examinations will lapse if within the respective academic year the component has not been completed with a sufficient grade or a compensated result.

Chapter 9 Exemptions

Article 33#** Exemptions

1. At the request of an interested party, the Examination Board may grant an exemption from sitting an (interim) examination of a course, if the cumulative assessment/part of the cumulative assessment of one of the faculties of ESL or another university justifies the requested exemption.
2. The request for an exemption for each unit must be accompanied by:
 - certified copies of diplomas and lists of marks
 - all documents necessary to assess the requested exemption, e.g. bibliographies, course guide description and syllabi
 - a quantitative indication of previous study loads
 - a statement with regard to an exemption previously granted to the student for one or more (interim) exams
 - a statement with regard to the academic phase and the year in which the (interim) examination was sat.
3. An exemption will not be granted if the term of validity of a cumulative assessment course has lapsed elsewhere.
4. In principle, no partial exemptions for (interim) exams will be granted. The Examination Board may depart from this provision on the basis of the hardship clause.
5. If, during an academic year, a course is governed by exemption regulations, these regulations will be published on ESL's website. Requests for a standard exemption have to be accompanied by a copy/certified copy of the diploma earned and additional evidence, such as a list of marks, indicating all the courses of study passed and the date on which they were passed. If the student is requesting an exemption on the basis of results earned at an affiliated faculty in a period during which the student in question was excluded from (interim) exams at his/her own faculty due to cheating, the exemption will not be granted.
6. If the student requests an exemption on the grounds of the results he or she achieved at a sister faculty in a period when the respective student was excluded from taking (interim) exams at his or her own faculty due to exam fraud, the exemption will not be granted.

Article 34#** Combination of LL.M. programme programs or specialisations

1. Students who want to combine the LL.M. programme with one of ESL Law's LL.M. programme programmes (except Criminology) receive, if they have already successfully completed the cumulative assessment of one of these LL.M. programme programmes:
 - exemption from the open elective subject of the LL.M. program, and in so far as the open elective unit is part of the program.
2. Students who are admitted to the 'Dubbelstudie Economie en Recht' as meant in article 18 (Additional student support for the 'Dubbelstudie Economie en Recht') and students who are admitted to the 'Dubbelstudie Recht en Bedrijfskunde' in article 19 (Additional student support 'Dubbelstudie Recht en Bedrijfskunde') of this scheme and who have completed the bachelor of LL.M. program and the master in Economics or Business administration will receive:
 - exemption from the free elective component, insofar as this forms part of the master program.
3. The exemption requests must be made to the Examination Board.

Chapter 10 Final assessment results

Article 35*** Determination of final results

1. After all (interim) exams for all courses as referred to in article 8 (LL.M. programme specialisations) of this Regulation have been successfully passed, the final results of the Master will be determined by or on behalf of the Examination Board. The Study Progress and Diploma verifies compliance with all requirements as referred to in article 8 of this Regulation.
2. Contrary to the provisions of the first paragraph, prior to determining the final results, the Examination Board itself may test the student's knowledge of one or more elements of the programme, if and in so far as the results of the (interim) exams provide reason for doing so.
3. The date of graduation will be the date that follows from the 'Procedural regulations for awarding degrees following final assessments' in Appendix 1.
4. The Study Progress and Diploma determines more detailed regulations for registering for the final assessment. These more detailed regulations require the approval of the Examination Board and will be duly publicised in good time.
5. The final result has an unlimited term of validity.

Every decision by the Examination Board will be made in writing and substantiated.

Article 37 Appeals protocol

1. All written decisions of the Examination Board and of the examiners will include a standard statement indicating the possibility of lodging an administrative appeal to the CBE and the term within which this should be done. The student whose rights with regard to the provisions of the TER are directly affected by a decision of or refusal to take a decision by the Examination Board or an examiner may lodge an administrative appeal with the CBE within six weeks of the announcement of the decision or refusal to take a decision.
