Next steps projects and approach
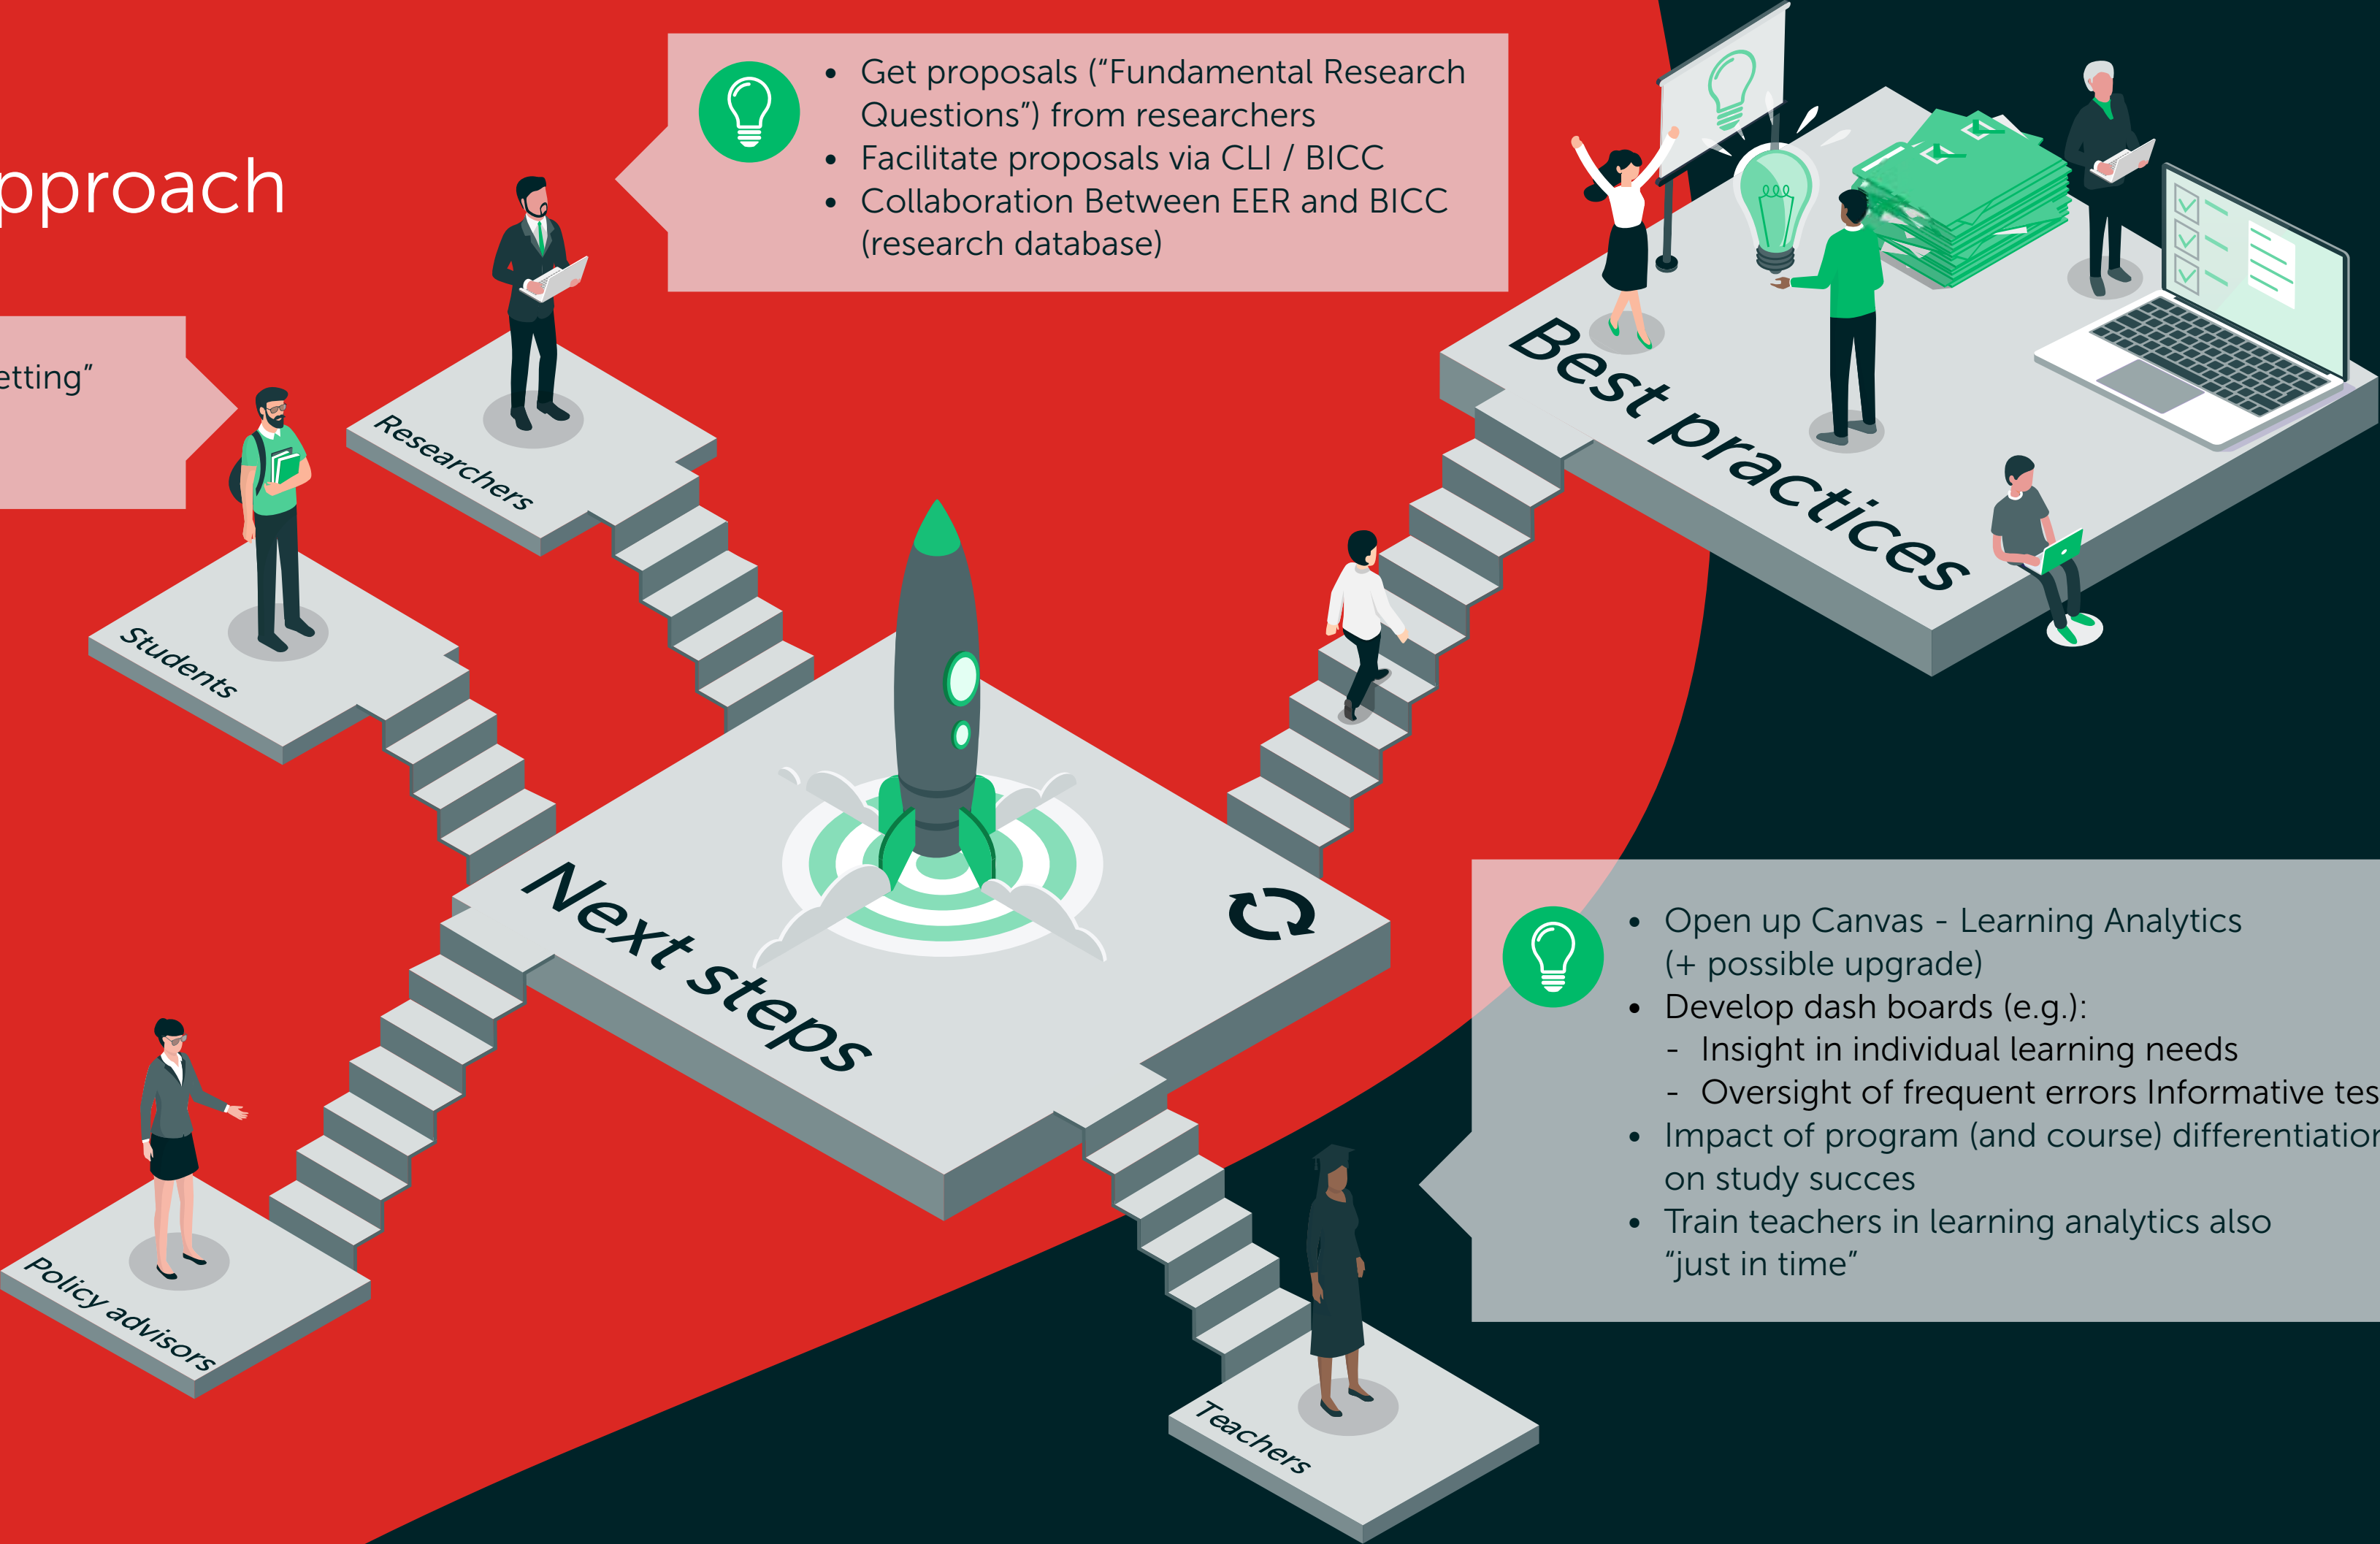

- Get proposals ("Fundamental Research Questions") from researchers
- Facilitate proposals via CLI / BICC
- Collaboration Between EER and BICC (research database)

- Develop support for "assisted goal setting"
- (Personalized) best study practices

Researchers

Students

Best practices

Data Design Quality and Innovation themes
By policy advisors, program coordinators innovation and BICC

Develop dashboards on (e.g.):
- Impact of skills education on fit with the labour market
- How do we best adapt personalized learning to need of students?
- Impact of tutors on small-scale and intensive education

Let's start now!
From faculty perspective: start small with one or two questions

Policy advisors

Next steps

- Open up Canvas - Learning Analytics (+ possible upgrade)
- Develop dash boards (e.g.):
  - Insight in individual learning needs
  - Oversight of frequent errors Informative tests
- Impact of program (and course) differentiation on study succes
- Train teachers in learning analytics also "just in time"

Teachers

Privacy & Ethics Board	Project-based Portfolio of small projects / initiatives	Compact steering committee CIO / CLI	EUR community for learning analytics
